600-003 VM600 XMV16 Automation PLC Parts MEGGITT Vibro Meter PLC Safety Card

Our Product Introduction

Basic Information

- Place of Origin: USA
- Brand Name: Vibro-Meter
- Certification: CO
- Model Number: 600-003 VM600 XMV16
- Minimum Order Quantity: 1pc
- Price: Negotiate price
- Packaging Details: BRAND NEW WITH FACTORY PACKAGE
- Delivery Time: 2-3 days
- Payment Terms: T/T
- Supply Ability: 100pcs per week

Product Specification

- PART NO.: 600-003 VM600 XMV16
- Weight: 1.25 KG
- Actual Price: Based On Offer
- Condition: New Original With Sealed
- Application: Oil And Gas Factory, Power Plant
- Color: Normal
- Highlight: **600-003 VM600 XMV16**, **Vibro Meter 600-003**, **VM600 XMV16 MEGGITT PLC**

Product Description

Product Description

600-003 VM600 XMV16 MEGGITT PLC Protection Safty Card

Technical Application

600-003 VM600 XMV16 Application
Steam Turbines
From sensors covering every steam turbine measurement to centralized or distributed machinery protection systems to powerful condition monitoring software to a broad portfolio of supporting services delivered by deeply experienced professionals, vibro-meter solutions are engineered to ensure you get the most from your steam turbines whether a 150 kW single-stage unit in mechanical drive service or a 1200 MW compound unit in nuclear power generation service.

Gas Turbines
Meggitt's vibro-meter product line is standard and preferred by many of the world's largest suppliers of gas turbines, covering sensors, protection systems, condition monitoring systems, software, and services. Our solutions address not only vibration, but also the combustion dynamics so vital for today's low-emission designs that operate under metastable conditions. And our offerings address industrial, heavy-duty, and aero-derivative designs along with their driven equipment for truly plant-wide solutions. covering all types of machines.

Nuclear Power
A hallmark of vibro-meter's expertise with sensors is that they are robust – able to endure the harshest conditions. We are also the only manufacturer with the ability to support either voltage-mode or current-mode signal transmission in most of our sensors, affording you more flexibility to address noisy environments and long cable runs. And, our sensor solutions provide the flexibility of industry-standard outputs that allow them to be used with our own monitoring systems as well as others. Because most nuclear plants utilize PWR processes, a majority of the machinery is not in containment conditions and standard sensors can be used. For BWR and applications where the sensors will be exposed to elevated radiation levels, consult the vibro-meter factory for assistance.

Advantage Products

Programmable Logic Controller PLC

PLC	1756-L72,1756-EN2T,1756-RM2
ICS Triplex	T8403C,T8461C,T8111C,T8311C

More Support

1. Brand new competitive price.
2. Prompt delivery and remarkable services.
3. 100% new products and 100% reliable hight quality.
4. Free After-Sale Service,solve all your problems.
5. lower your support costs
6. Quality is guarantee within 1 year from the date of shipment.

Packaging & Shipping

1) All quote are basic on EX-WORK
2) Delivery time: 3-5 days after payment
3) Delivery term via DHL/TNT/UPS/EMS/Fedex.
Packaging Details:original packing factory sealed

Our Company

Wuhan Sean Automation Equipment Co.,Ltd established for over 6 years, believes in providing the best quality,we offer and deliver products worldwide.As a factory automation wholesale distributor,we provides quality new parts along with quality on everything we carry.
We offer a minimum one-year warranty on all products.satisfied for customers are to our purpose.we have been committed to providing quality parts and equipment at the right price and right time to every clients.Many parts are stocked and available with very short lead times to ensure yourparts are available when you need them.
